Nationality: Indian (Visit Visa) | **Availability:** Immediate Joiner

Executive Summary

Results-oriented **MBA in Data Science & Analytics** with commercial acumen and hands-on execution across **process mining, requirement elicitation, and automated analytics**. Proven success in identifying operational bottlenecks, conducting ROI analysis, and architecting decision-support workflows under IBM partner consulting initiatives. Adept at translating complex executive requirements into scalable digital solutions that drive measurable cycle-time and margin improvements.

Core Competencies & Strategic Fluency

- **Business Strategy & Commercial Operations:** Strategic Planning, KPI Modeling, Process Mining, ROI Analysis, Requirement Elicitation, Stakeholder Management, Vendor Evaluation.
- **Data Ecosystem & Analytics:** Power BI (Advanced DAX, Power Query), Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL, MS SQL), Microsoft Azure, Tableau, Financial Modeling.
- **AI & Intelligent Automation:** Generative AI (LLMs, Local RAG architectures), Prompt Engineering, Autonomous Workflow Agents, Power Automate, UiPath RPA, IBM BAW (Business Automation Workflow).

Professional Experience

Independent AI & Business Solutions Consultant

2025 – Present

Self-Employed

Dubai, UAE

- Reduced sales prospecting cycle time by 80% by architecting an automated lead intelligence web app utilizing **Playwright RPA** to scrape map targets and migrate verified records directly into client data stores.
- Engineered an end-to-end sales enablement CRM featuring embedded call/WhatsApp playbooks and deal-tracking dashboards, boosting daily outbound sales outreach capacity by 2x.
- Engineered **Career-Ops**, a local-first workspace orchestrating local **Qwen** LLMs and a custom **Chrome extension** to extract JDs, generate hallucination-free ATS-tailored LaTeX resumes, and manage pipeline velocity across interactive **Kanban** views.
- Delivered a bespoke client web platform with 100% on-schedule milestone execution by managing the full technical lifecycle from stakeholder requirements gathering to deployment.

Data Science Intern

Jun 2024 – Mar 2025

Luminar Technolab

Kerala, India

- Enhanced forecasting throughput and predictive accuracy across business test scenarios by developing scalable data and analytics pipelines in **Python and SQL**.
- Projected a **15% revenue uplift** for targeted sales campaigns by engineering a predictive customer segmentation machine learning pipeline.
- Slashed reporting latency by **95%** (from 3 days to under 2 hours) by orchestrating the end-to-end migration of legacy reporting workflows to interactive **Power BI** dashboards.
- Eliminated reporting anomalies and ensured high-fidelity executive metrics by engineering automated data validation scripts across multi-source datasets.

Associate AI & Data Analytics Engineer

Nov 2023 – May 2024

Resemble Systems

Kochi, India

- Delivered enterprise consulting and workflow solutions for regional corporate clients under Resemble Systems' official IBM Partnership, leveraging **IBM BAW** and AI automation.
- Slashed repetitive manual data processing time by **45%** by spearheading a finance process automation initiative using **Power Automate**.
- Drove a **20% cycle time efficiency gain** by conducting process mining across multi-tier client operations to identify and eliminate workflow bottlenecks.
- Guided executive staffing and retention decisions by architecting interactive HR analytics dashboards in **Power BI** unifying workforce engagement and attrition metrics.
- Ensured operational high availability and enterprise security compliance by deploying scalable cloud automation modules on **Microsoft Azure**.

Featured AI & Engineering Projects

LiquidityAI: Automated Accounts Receivable Engine

2024

System Architect

Python, Streamlit, Multi-Agent Logic

- Architected an autonomous Python workflow for overdue invoice recovery, reducing routine accounting follow-up effort by **80%**.
- Implemented dual-tier risk prioritization (VIP vs. High Risk) to balance client relationship preservation with accelerated liquidity collection.
- Integrated a custom Streamlit management portal with AI agent communications, enabling human-in-the-loop review and approval for high-value accounts.

Local RAG: Secure Enterprise Document Intelligence

2024

Lead Developer

DeepSeek, Ollama, Vector Search

- Engineered a privacy-first retrieval-augmented generation (RAG) agent allowing secure querying of internal PDFs with zero external cloud exposure.
- Combined vector embeddings with BM25 hybrid search to ensure high retrieval precision and sub-second query response times across multi-format documents.

Automated Quality Control (Industrial Computer Vision)

2023

AI Developer

Python, TensorFlow, OpenCV

- Developed a convolutional neural network (CNN) model to simulate industrial automated defect detection, achieving a **96% accuracy rate**.
- Applied robust data augmentation and preprocessing pipelines to maintain high classification confidence under variable lighting environments.

Education

Master of Business Administration (MBA) – Data Science & Analytics

2021 – 2023

JAIN University

India

- **Core Specialization:** Business Statistics, Predictive Modeling, Financial Analysis, Strategic Decision-Making.

Bachelor of Commerce (B.Com) – Computer Applications

2018 – 2021

Kannur University

India

- **Foundational Focus:** Accounting Principles, Commercial Law, Financial Management, Software Applications.

Certifications & Accolades

- **Google Advanced Data Analytics Professional Certificate** – Coursera
- **Generative AI with Large Language Models** – DeepLearning.AI / Coursera
- **Google Data Analytics Specialisation** – Coursera
- **KPMG Data Analytics Consulting Virtual Internship** – Forage
- **Accenture Data Analytics & Visualisation Virtual Experience** – Forage
- **1st Place, Strategic Marketing Case Competition** – Encore 2020 (South Indian Management Fest)

Languages & Mobility

- **Languages:** English (Professional Working) | Malayalam (Native / Bilingual) | Hindi (Professional Working)
- **Location & Availability:** Based in Dubai, UAE | Visit Visa (Immediate Joiner)
